Education

SUNY Old Westbury — Old Westbury, NY
Bachelor of Science in Computer Science — *Expected May 2027*

- **GPA:** 3.76
- **Dean's List:** Fall 2023, Fall 2024, Spring 2025, Fall 2025
- **Relevant Coursework:** Data Structures & Algorithms, Computer Architecture, Database Systems, Software Engineering, Linear Algebra, Internet & Web Technology, Probability & Statistics, Machine Learning, Artificial Intelligence

Technical Skills

Languages: JavaScript, TypeScript, Java, C++, Python, SQL, HTML/CSS, PHP, Go
Frameworks & Libraries: React, Node.js, Spring Boot, Express.js, Tailwind CSS, Next.js
Databases & Cloud: PostgreSQL, MySQL, MongoDB, Supabase, AWS, Google Cloud Platform
Developer Tools: Git, Docker
Certifications: Google Cloud Fundamentals (Issued Jul 2025), Intro to Technical Interview Prep (Issued Apr 2026), Foundations of AI Engineering (Issued Aug 2026)

Experience

USA Entertainment Ventures — Hicksville, NY
Full Stack Developer — *Jun 2026 – Sep 2026*

- Built a two-way **Supabase** and **GoHighLevel CRM** sync, automating lead workflows and saving 15+ hours of manual data entry per week.
- Developed features for a **React Native** and **TypeScript** mobile application focused on social engagement for college athletes and fans.
- Collaborated with developers through Git, feature branches, pull requests, code reviews, and sprint-based development.

Qualtrics — New York City, NY
Data Optimizer — *Jul 2025 – Dec 2025*

- Automated mobile campaign data validation using **Python**, reducing repetitive manual review work.
- Developed audit tools that identified data inconsistencies and supported quality assurance for enterprise client campaigns.
- Managed and verified 100+ concurrent campaign tasks, ensuring accurate execution and timely delivery.

Projects

Code Quest Academy | *TypeScript, Next.js, Redis, Hono* — Aug 2026 – Sep 2026

- Developed a full-stack learning platform serving 24K+ students, featuring interactive coding challenges, interview preparation tools, and persistent progress tracking using **Next.js** and **TypeScript**.
- Built backend APIs, leaderboards, daily challenge generation, and achievement systems using **Hono** and **Upstash Redis**, with a responsive interface optimized for desktop and mobile devices.

Railway System | *PHP, Go, Python, Redis* — Jun 2026 – Aug 2026

- Engineered a **Python + Redis** data pipeline processing live train positions in 1-second update loops, streaming ETA updates to users with sub-50ms latency.
- Built an administrative control room using **PHP** and **Redis Pub/Sub** for dispatchers, enabling instant schedule updates with sub-second state propagation.

Rate My Major | *Python, React, PostgreSQL, OpenAI* — Nov 2025 – Dec 2025

- Developed an AI-powered platform that analyzes 12+ academic majors to provide salary insights and industry trends.
- Designed a **Python** backend and relational database storing 15+ attributes per major, enabling fast and structured data retrieval.
